rookerynook@hotmail.co.uk

Pussy Willow Cattery is a small, family run boarding cattery on the side of the Severn Gorge in Shropshire, near to the historic tourist area of Ironbridge, and on the outskirts of Telford.

After our first couple of years trading, we decide to invest in a computerised booking system – to make life easier, or so we thought.

Our first venture was costly – a system that never worked, which is a common problem when you purchase a readymade system from the internet.

Undaunted we tried again, but only because we were able to have a risk free trial of the Avalon system.

We are not computer experts but now we don't need to be, we have the experts at Avalon to back us up

What a refreshing change, Roger has been fantastic, so patient with us when our computer went to gadget heaven and we had to start again, he spent time advising us , so much so, that we have had no hesitation in extending our software support and will recommend this system to any potential user.

David and Wendy Potts
